#### Important!

In order to apply all changes made to the printer you turn it off immediately (using the printer power button). Successful reset isn't completed until printer has been powered off and on again. Failure to restart the printer may result in all counters/states returning to their previous settings.

#### Please, turn printer OFF now.

\*If the waste ink error does not disappear, remove and insert the ink cartridge.

This will eliminate the error.

\*Even if you clear the waste ink error, another error occurs and the operation cannot be performed.

There are cases.

thank you for your hard work. Close the software and you're done.

# thank you very much.
